OBJECTIVE

Seeking a 6 months internship related to software engineering, ML or cybersecurity. I wish to start by July 2025.

EDUCATION

Master of Computer Science, EPITA University, Paris Expected 2027
Relevant Coursework: Data structures & Algorithms, OOP, Unix/Linux development, Cryptography, Neural Networks, Calculus II and project management.

Semester Abroad, Dorset College University, Dublin jan 2024 - april 2024
Relevant Coursework : front/back Web development, Android Mobile development, Devops, Lean/Agile

French Baccalaureate, Chaptal, Paris 2019 - 2022
Relevant Coursework : Algorithms & Calculus I

SKILLS

Technical Skills	C, C++, C#, Python, Rust, Ocaml, ASM
Softwares	GitHub/Pages, Unity Engine, Visual Studio, Rider, Overleaf, Android studio
Web / mobile	MVC, API's, Databases, HTML/Javascript, ReactJS, NodeJS, Kotlin

EXPERIENCE

Summer student Job - Waiter June 2024 - Aug 2024
Hippopotamus *Paris, FR*

Summer student Job - Waiter June 2023 - Aug 2023
Hippopotamus *Paris, FR*

PROJECTS

OCR Built a sudoku solver based on image detection in C without image processing librairies. The GUI application can successfully solve sudokus via images, including deteriorated and rotated pictures. ([Try it here](#))

Android App Built a shopping application in Kotlin using Firebase. The user can successfully register, login and logout, as well as navigate through the available products and store them in his cart. ([The project](#))

Website Built a personal website using HTML/Javascript and deployed it to GitHub. I made a frontend portfolio aswell as some Javascript projects. ([Have a look](#))

Video game Made an RPG-like 2D video game using Unity Engine with 4 teammates. I learned about OOP concepts, game design as well as code versioning.

EXTRA-CURRICULAR ACTIVITIES

- Ran a BTC node
- Participation in CTFs
- Weekly LeetCode user ([My profile](#))
- Weekly typing speed practice ([Check my stats](#))
- Video Editing ([A sample](#))
